## Why Choose Inspektra?

**Title:** Why choose Inspektra?

**Subtitle:** Built for professionals who want less admin and more control.

- **Compliance, simplified** – Stay audit-ready and meet electrical safety requirements with minimal effort.
  - **On-the-go operations** – Manage inspections, assets, and reports from anywhere.
  - **Data you can trust** – Ensure secure, standardised reporting for peace of mind.
  - **Seamless collaboration** – Work together with OMS technicians and your team in one secure platform.
-

## Key Features

**Title:** Everything you need for electrical safety, in one place

- **Dashboard** – Clarity at a glance: inspections, risks, and tasks.
  - **Assets & Locations** – Keep everything organised in one system.
  - **Inspections** – Access OMS reports, plan in-house inspections, and never miss a deadline.
  - **Risk Assessments** – Evaluate risks, define test intervals and stay ahead of compliance.
  - **Tasks** – Assign, resolve, and track incidents without paperwork.
- 

## Security & Reliability

**Title:** Security you can trust

**Subtitle:** Your compliance data is protected with enterprise-grade security.

- ISO 27001-certified processes
  - Data hosted securely on Microsoft Azure
  - GDPR compliance by design
- 

## How It Works

**Title:** A simple path to value

**Subtitle:** From your first OMS inspection to full digital compliance.

1. **Get started with OMS** – Your inspection reports appear automatically in Inspektra.
  2. **Engage your team** – Invite colleagues, assign roles, and collaborate in one platform.
  3. **Expand as you grow** – Add in-house inspections, asset management, risk assessments, and advanced reporting when needed.
- 

## Plans & Pricing

**Title:** Flexible plans for every organisation

**Subtitle:** Start free and grow as your needs evolve.

Whether you're managing a single site or multiple facilities, Inspektra scales with your team. Upgrade when you're ready for more control, insights, and collaboration.
